COMMITTEE ON ECONOMIC, SOCIAL
AND CULTURAL RIGHTS

**GUIDELINES ON TREATY-SPECIFIC DOCUMENTS TO BE SUBMITTED BY
STATES PARTIES UNDER ARTICLES 16 AND 17 OF THE INTERNATIONAL
COVENANT ON ECONOMIC, SOCIAL AND CULTURAL RIGHTS¹**

Note by the Secretary-General

1. In accordance with article 17 of the International Covenant on Economic, Social and Cultural Rights, the Economic and Social Council, by its resolution 1988 (LX) of 11 May 1976, established a programme under which the States parties to the Covenant would furnish in stages the reports referred to in article 16 of the Covenant and the Secretary-General, at the Council's request, subsequently drew up an appropriate set of general guidelines. In response to the introduction of a new reporting cycle, the Committee on Economic, Social and Cultural Rights, at its fifth session, held from 26 November to 14 December 1990, adopted a set of revised general guidelines which replaced the original guidelines.
2. The purpose of reporting guidelines is to advise States parties on the form and content of their reports, so as to facilitate the preparation of reports and ensure that reports are comprehensive and presented in a uniform manner by States parties.

1. Adopted by the Committee on Economic, Social and Cultural Rights at its 49th meeting (forty-first session) on 18 November 2008, taking into consideration the guidelines on a common core document and treaty-specific documents, as contained in the harmonized guidelines ((HRI/GEN/2/Rev.5).

3. The Committee has decided to replace the revised general guidelines (E/C.12/1991/1) by the present guidelines to take into account the harmonized guidelines on reporting under the international human rights treaties (HRI/GEN/2/Rev.5), as well as the evolving practice of the Committee in relation to the application of the Covenant, as reflected in its concluding observations, general comments and statements.
4. The text of the guidelines on treaty-specific documents to be submitted by States parties under articles 16 and 17 of the Covenant is contained in the annex to the present document.

ANNEX

Guidelines on treaty-specific documents to be submitted by States parties under articles 16 and 17 of the International Covenant on Economic, Social and Cultural Rights

A. The revised reporting system and organization of information to be included in the common core document and in the treaty-specific document submitted to the Committee on Economic, Social and Cultural Rights

1. State reports submitted under the harmonized guidelines on reporting under the international human rights treaties consist of two parts: a common core document and treaty-specific documents. The common core document should contain general information about the reporting State, the general framework for the protection and promotion of human rights, as well as information on non-discrimination and equality, and effective remedies, in accordance with the harmonized guidelines.

2. The treaty-specific document submitted to the Committee on Economic, Social and Cultural Rights should not repeat information included in the common core document or merely list or describe the legislation adopted by the State party. Rather, it should contain specific information relating to the implementation, in law and in fact, of articles 1 to 15 of the Covenant, taking into account the general comments of the Committee, as well as information on recent developments in law and practice affecting the full realization of the rights recognized in the Covenant. It should also contain information on the concrete measures taken towards that goal, and the progress achieved, including – except for initial treaty-specific documents – information on the steps taken to address issues raised by the Committee in the concluding observations on the State party's previous report, or in its general comments.

3. In relation to the rights recognized in the Covenant, the treaty-specific document should indicate:
 - (a) Whether the State party has adopted a national framework law, policies and strategies for the implementation of each Covenant right, identifying the resources available for that purpose and the most cost-effective ways of using such resources;
 - (b) Any mechanisms in place to monitor progress towards the full realization of the Covenant rights, including identification of indicators and related national benchmarks in relation to each Covenant right, in addition to the information provided under appendix 3 of the harmonized guidelines and taking into account the framework and tables of illustrative indicators outlined by the Office of the United Nations High Commissioner for Human Rights (OHCHR) (HRI/MC/2008/3);
 - (c) Mechanisms in place to ensure that a State party's obligations under the Covenant are fully taken into account in its actions as a member of international organizations and international financial institutions, as well as when negotiating and ratifying international agreements, in order to ensure that economic, social

and cultural rights, particularly of the most disadvantaged and marginalized groups, are not undermined;

- (d) The incorporation and direct applicability of each Covenant right in the domestic legal order, with reference to specific examples of relevant case law;
- (e) The judicial and other appropriate remedies in place enabling victims to obtain redress in case their Covenant rights have been violated;
- (f) Structural or other significant obstacles arising from factors beyond the State party's control which impede the full realization of the Covenant rights;
- (g) Statistical data on the enjoyment of each Covenant right, disaggregated by age, gender, ethnic origin, urban/rural population and other relevant status, on an annual comparative basis over the past five years.

4. The treaty-specific document should be accompanied by a sufficient number of copies in one of the working languages of the Committee (English, French, Russian and Spanish) of all other supplementary documentation which the State party may wish to have distributed to all members of the Committee to facilitate the consideration of the report.

5. If a State party is party to any of the ILO Conventions listed in appendix 2 of the harmonized guidelines, or to any other relevant conventions of United Nations specialized agencies, and has already submitted reports to the supervisory committee(s) concerned that are relevant to any of the rights recognized in the Covenant, it should append the respective parts of those reports rather than repeat the information in the treaty-specific document. However, all matters which arise under the Covenant and are not fully covered in those reports should be dealt with in the present treaty-specific document.

6. Periodic reports should address directly the suggestions and recommendations of the previous concluding observations.
